GLOW

LABELED CONTENT

70 mg

VISUAL DESCRIPTION

Small Clear vial: purple sample, white label, silver crimp, green plastic cap.

TESTING PURPOSE AND LIMITATIONS

FTIR and HPLC analysis for the identification, purity, potency and composition of a peptide product. It does not provide information on particulate matter, microbial contamination or presence of endotoxins.

**SELECTED TEST RESULTS**

| TEST                                         | METHOD     | SPECIFICATION                                                                  | RESULT                                                                                    |
|----------------------------------------------|------------|--------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| General Appearance                           | USP <630>  | purple powder                                                                  | purple powder                                                                             |
| Mass                                         | USP <41>   | As recorded                                                                    | 162.7 mg                                                                                  |
| FTIR Identification and Composition Analysis | USP <197A> | Sample spectrum should confirm the content of peptide via characteristic bands | FTIR sample spectrum confirms the presence of Glow with addition of excipient(s)/fillers. |
| HPLC Purity of Peptide Assay                 | USP <621>  | Specifications: >= 98 %                                                        | 99.6 %                                                                                    |

**SOURCE AND VERIFICATION**

Testing was performed by BT Labs. Pure Lab Peptides prepared this branded summary from the original signed laboratory report. This summary is not issued or signed by BT Labs.
